Last fall, Rep. Herseth Sandlin hosted USDA Secretary Tom Vilsack to show him the flood damage in northeastern South Dakota, as well as discuss the impact of this flooding on agricultural producers and rural communities at a Rural Issues Forum near Bath. She met with Administrators from both Federal Emergency Management Agency and Federal Highway Administration last week to discuss impact of the damage on transportation, infrastructure and agriculture, and the need to enhance long-term flood management capabilities.

This will be the ninth community meeting Rep. Herseth Sandlin has held across South Dakota to discuss the effects of seasonal flooding.
